*P-FWA  
Axial  
Fresh Air Fan*

[venturka.com](http://venturka.com)

## Technical Specifications

# AXIAL FRESH AIR FAN

P-FWA series axial fresh air fans are the ideal fans to meet the fresh air requirement in ventilation systems where high air flow is required. Thanks to their compact construction, they can be installed directly in air ducts, shaft, roof floor, any position required. P-FWA axial fans have high performance, trouble-free operation.

It is manufactured between  $\varnothing 400\text{mm}$  and  $\varnothing 1250\text{mm}$  diameters. The body is made of high quality, corrosion-resistant galvanized steel. The propellers are made of special aluminum alloy with adjustable blade angles. According to the project, uni-directional or reversible options are available. It is manufactured as standard (380 V - 50 Hz) or other voltages and frequencies (400/415/440 V - 50 Hz) on request. Motors can be single-speed or double speed and have Class H, S1, IP55 insulation. The sound level can be controlled by adding a silencer at the sensitive points.

Optionally, it can be manufactured with Ex-Proof feature.

### Usage Areas

Can be used in all kinds of industrial, office, shopping mall, hospital, parking and residential ventilation to meet the fresh air requirement.
